Item Restrictions

These restrictions apply regardless of whether a character uses 2014 or 2024 rules unless a specific entry says otherwise.

Just like any in person or digital table, the DM may impose a variety of restrictions on the players to ensure that their game runs smoothly and is enjoyable for everyone at their table. For example the limitations on the variety of classes or races available during character creation, the availability of optional rules, or the list of items that may be acquired by their players. To ensure a fair playing field for all players from level 3 to 20 and to reduce the stress on our amazing DMs, we have decided to limit or restrict the accessibility of particular items for a variety of reasons. Generally, these are broken down into four main categories, or groups, which include scope, power, balance, and unforeseen circumstances.

Group 1

The following items have been restricted due to being beyond the scope of the server, i.e. items that don't fit the theme of Macguffins, Ltd, end game magic items and beyond

All Legendary and Artefact magic items as well as Smokepowder are not available.

Group 2

The following items have been restricted as they have been deemed too powerful for the style of West Marches experience that we have cultivated.
